

Dogtra 175NCP Dog Training Reviews

Introduction

A comparison of features of the **Dogtra 175NCP dog training with reviews** of other e-collars proves it is the best dog trainer on the market. It is not surprising that so many have **recommended Dogtra 175NCP dog training collars** for basic obedience training of small to medium dogs. It is built to stand up to harsh conditions with excellent durability use. The e-collar features the latest technology to make training much more effective than other brands. Included with the purchase of the unit is a rechargeable battery and water resistant transmitter. **Dogtra NCP remote training collars** have waterproof receivers and come complete with charger and extra contact points.

The e-collar has a range of 400 yards; equivalent to one quarter mile. Purchase includes a 1 year manufacturer's warranty. It is very easy to use with user friendly controls that don't require complicated pre-programming. Among the other impressive features is the rheostat control that lets you perform 3 different stimulation types with a gradual increase or decrease as needed from 0 to 100.

Features and Benefits

Some key features of the Dogtra 175NCP training system include:

1. In many **Dogtra 175NCP dog training reviews** owners have stated that the versatility of three types of stimulation is invaluable in training dogs of all temperaments. Since the **Dogtra 175NCP is for smaller dogs** this is helpful in deciding whether to use a quick burst with the nick button, a steady stimulation or vibration only with the page button is suitable. The pager feature can also be used for fast reminders or finesse training.
2. The Dogma 175NCP has more than 3000 different industry codes. This feature eliminates any conflicts with codes in other electronic collars.
3. Rechargeable Ni-MH batteries and a three color LED battery life indicator are both included with the unit. These features help take the worry and guesswork out of when it is time to recharge the battery.
4. Charging the transmitter and receiver both at the same time is a great way to save time and the need to carry around extra equipment.
5. Three button display is an easy to read design making it less complicated for people who are new to training to provide basic obedience training.

Content and Product Specifications

Package includes one each transmitter and receiver, splitter cable, owner's manual and battery charger. Specifications for the Dogtra 175NCP are:

Pros

1. There are numerous positive comments included in [Dogtra 175NCP dog training reviews](#) including it being the [best price in the Dogtra 175NCP e-collar](#) line. The dog unit is highly durable with excellent construction. This makes it a smart investment since it can be used to train many dogs over a period of time.
2. The Dogtra 175NCP is very easy to clean for sanitary conditions for your pet.
3. The unit is very easy to assemble and to store.
4. The e-collar can be adjusted for both small and medium breeds. The collar is ¾" and can fit up to an 18" neck.
5. The receiver is waterproof and the transmitter is water resistant which decreases the chance of damage to the unit.
6. Many customers see quick results in their dog's behavior within one week.

Cons

1. As with any product, [Dogtra 175NCP dog training reviews](#) include comments about what users did not find helpful. But by comparing the [Dogtra 175NCP to popular dog collars](#) these comments were few; such as it not being effective in training large dogs.
2. The 400 yard range may be too small of a range for people who have large property like farms or for dog training in parks.
3. The unit is designed to train only one dog. People with more than one dog will need to purchase a separate unit for each dog.

Conclusion

Learn for yourself about the easy to use, humane way to train your dog, Comparing comments about the [Dogtra 175NCP with reviews](#) of similar products proves it is the better choice.
